OUR SERVICES

Permanent/Direct Hire

We provide a dedicated search service for direct hires, covering technical engineering and managerial roles at all levels of seniority. Ideally equipped to supply a multi-national workforce to multi-national placements, we have an up-to-date database of highly skilled personnel for clients to choose from. We adopt strategic advertising approach and specialized search portals to attract talents for your project requirement.

Headhunting

Gasoil has the capability to provide a comprehensive and discreet headhunting service. Potential targets are identified and approached to ascertain their interest in a position. This focused approach is most suitable when the requirement concerns a senior or specialized role where talent is not readily available in the job market.

OUR CANDIDATES

Gasoil provides experienced Project Management staff, Engineers, Designers and Technicians for Offshore Platforms, FPSO, Jack-Up, Semi-Sub, Drilling Rig, Pipeline, Refinery, Petrochemical Plant and Power Stations. Whether the scope of work is design, engineering, construction, commissioning, maintenance or operations, Gasoil has the ability to provide the right candidate at the right time.
